BRAND MANUAL · VERSION 1.0 · NOVEMBER 2026

OmniFarmGrid

Every farm, connected.

Guidelines for the OmniFarmGrid logo, colour, typography and voice.

INTRODUCTION

One grid for every farm

OmniFarmGrid is livestock record-keeping software for smallholder farms in Botswana. Farmers and farm hands keep a register of every goat, sheep, pig and cow, kraal by kraal, and record births, deaths, moves and vaccinations along with the medicine stock those vaccinations draw from.

The name says what the product does. **Omni**: every animal, every kraal, every record. **Farm**: built for the people who work the land. **Grid**: everything organised and connected in one place, on the phone in a farmer's pocket.

OmniFarmGrid replaces the AgroHerd name for the software. This manual sets out how the new identity is used so it looks the same in the app, on the website, on paper and on signboards.

Practical

Made for the kraal, not the boardroom. Clear, quick, no jargon.

Trustworthy

Farm records people can rely on, today and years from now.

Connected

Herd, fields, stock and people, together in one grid.

Your farm, on the map

1 · The pin

A map pin marks a place. Every OmniFarmGrid farm, kraal and animal has its place on the grid, and the farmer can find it from anywhere.

2 · The window

A round opening through the pin: a view into the farm. Its circle is also the O of *Omni*.

3 · The sprout

Two leaves on a single stem: growth, care and life on the farm, for crops and herd alike.

4 · The soil

A Harvest-gold curve of earth: the land everything grows from.

The mark sits on a 120-unit artboard: pin 80 wide and 108 tall, window radius 28, stem and soil 5 wide. The window is a true cut-out, so the background shows through it. Always use the supplied files; don't redraw it.

02 · LOGO VERSIONS

Three lockups, one system

Horizontal: primary

Use first. Website headers, documents, email signatures, banners.

Horizontal without tagline

When the logo is under 200 px wide, in the app header, or when the tagline appears nearby.

Stacked

Square and tall spaces: posters, title pages, signboards, merchandise.

Mark only

Where the name already appears or space is tight: app icon, avatars, favicons, stamps.

Wordmark: Poppins SemiBold, converted to outlines. **Omni** and **Farm** in Deep Field, **Grid** in Grid Green. Tagline: “Every farm, connected.” in Poppins Medium, Slate. Write the name as one word with capital O, F and G: **OmniFarmGrid**, never Omni Farm Grid, Omnifarmgrid or OFG.

Give it room to breathe

x is the radius of the pin's window, about a quarter of the mark's height. Keep at least **1x** clear on every side of any lockup. Nothing else may enter this space: no text, edges, folds or other logos. Where you can, leave 2x.

Minimum sizes

Version	Screen	Print
Horizontal with tagline	200 px wide	50 mm
Horizontal without tagline	120 px wide	30 mm
Stacked	96 px wide	25 mm
Mark	24 px	8 mm
Favicon (simplified sprout)	16 px	n/a

64 px 32 px 24 px 16 px favicon

Below 24 px the stem and soil line fill in. Use `favicon.svg` / `favicon.ico`, which show only bolder leaves.

04 · LOGO ON BACKGROUNDS

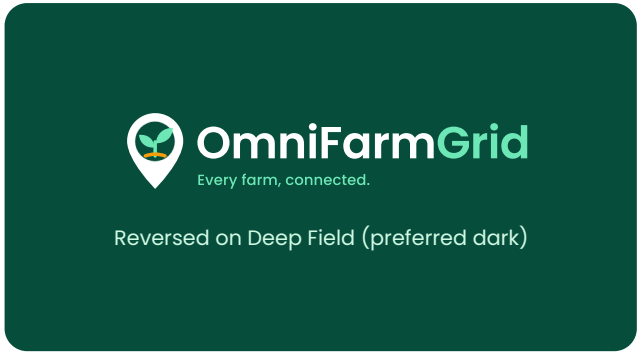

Pick the version for the background

Full colour on white or Mist

Full colour on Kalahari Sand

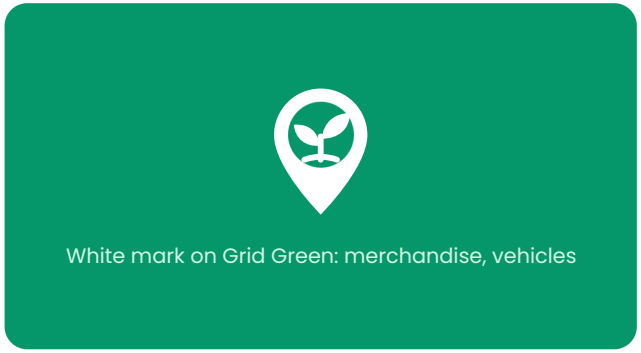

Reversed on Deep Field (preferred dark)

Reversed on Ink or dark photos

Black: one-colour print, fax, stamps, engraving

White mark on Grid Green: merchandise, vehicles

On photographs, place the logo over a calm, even area, or on a Deep Field panel. The background must give the wordmark at least 4.5:1 contrast.

05 · LOGO MISUSE

Keep the logo as it is

× Don't stretch or squash

× Don't change the colours

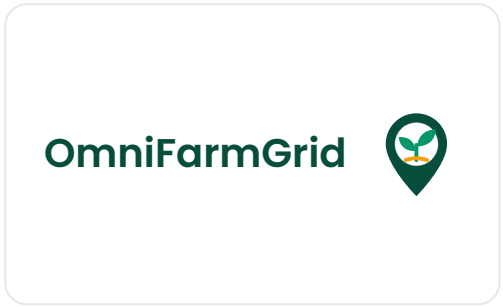

× Don't rotate

× Don't add shadows or effects

× Don't place on busy backgrounds

× Don't rearrange the parts

× Don't fade or use as a watermark

× Don't outline or retype the name

Greens of the land, gold of the harvest

Deep Field

HEX #064E3B
RGB 6 78 59
CMYK* 92 0 24 69

The pin, wordmark, headings, dark backgrounds
AAA on white (9.7:1)

Grid Green

HEX #059669
RGB 5 150 105
CMYK* 97 0 30 41

Brand colour: the sprout, "Grid", large headings
Large text only on white (3.8:1)

Grid Green Dark

HEX #047857
RGB 4 120 87
CMYK* 97 0 27 53

Buttons, links and small green text
AA on white (5.5:1)

Sprout

HEX #6EE7B7
RGB 110 231 183
CMYK* 52 0 21 9

The sprout on dark backgrounds, accents on Deep Field
Text on Deep Field only (6.4:1)

Harvest

HEX #F59E0B
RGB 245 158 11
CMYK* 0 36 96 4

The soil line, alerts, one highlight per layout
Never as text on white (2.2:1)

Ink

HEX #111827
RGB 17 24 39
CMYK* 56 38 0 85

Body text
17.7:1 on white

Slate

HEX #374151
RGB 55 65 81
CMYK* 32 20 0 68

Secondary text, tagline
10.3:1 on white

Mist

HEX #ECFDF5
RGB 236 253 245
CMYK* 7 0 3 1

Tinted panels, table stripes
Background only

Kalahari Sand

HEX #FBF6EC
RGB 251 246 236
CMYK* 0 2 6 2

Warm print background
Background only

Proportion

Mostly white or light space, Deep Field for structure, Grid Green to lead the eye, Sprout and Harvest as accents. Use Harvest sparingly: one highlight per screen or page.

*CMYK values are approximate conversions. Ask your printer for a proof before a large print run. The app uses the same colours: `--primary` is Grid Green.

Poppins, everywhere

Aa

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789 . , : ; ! ? ( ) / – % P

Regular 400: body text

Medium 500: labels, buttons, tagline

SemiBold 600: headings, wordmark

Bold 700: numbers on dashboards

Poppins is free (SIL Open Font License) and already bundled with the app in `libs/fonts/poppins`. If it isn't available, use Arial or Helvetica. Don't use condensed, script or novelty fonts.

At home on the phone

App icon · 512 px

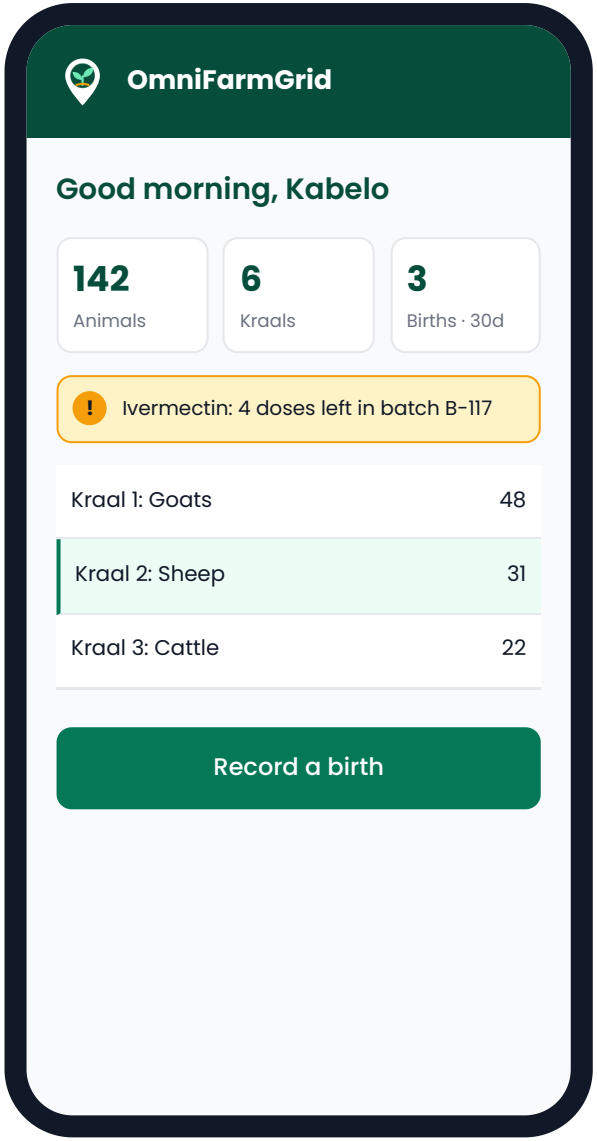

Home screen

The app icon is the reversed mark on a Deep Field rounded square, with the mark filling 70%. Use the supplied `omnifarmgrid-app-icon` files for the PWA manifest and app stores, and `apple-touch-icon.png` for iOS.

Interface rules

- Header: mark plus wordmark without tagline, 32 px high.
- Primary buttons: **Grid Green Dark #047857** with white text (5.5:1). Grid Green fails contrast for button text.
- Harvest is for alerts only: low stock, expiring batches, overdue vaccinations.
- Use Mist for selected rows and tinted cards.

Speak like a good neighbour who knows farming

Plain

Short sentences and everyday words. Many users read on small screens in bright sunlight, some in their second language.

The farmer's words

Kraal, kids, does, bucks, kidding; lambs, ewes and lambing; piglets, sows and farrowing; calves, cows and calving. The app already speaks each species' language.

Respectful

Farmers are experts in their animals. Explain what the app does, never how to farm.

Honest

Only promise what the product does today. Say plainly what is saved, what synced and what didn't.

Write this	Not this
3 kids recorded for doe Naledi.	Birth event entity successfully persisted.
Only 4 doses left in this batch. Order more soon.	WARNING: Inventory threshold breached!
Couldn't save. Check your signal and try again.	Error 503: Service unavailable.
Move 12 goats to Kraal 4?	Confirm bulk relocation operation.

OmniFarmGrid

Business card front and back (85 × 55 mm), a farm-gate sign (Deep Field panel, reversed logo), a social media avatar and an email signature. Names and numbers are examples. Signs and vehicles: use the reversed logo on Deep Field, or the white mark on Grid Green.

Use the right file

File	Use
omnifarmgrid-logo-horizontal	Primary logo, full colour
omnifarmgrid-logo-horizontal-notag	Small sizes, app header
omnifarmgrid-logo-horizontal-reversed	Dark backgrounds
omnifarmgrid-logo-horizontal-black	One-colour print
omnifarmgrid-logo-stacked (+ reversed, black)	Square or tall spaces
omnifarmgrid-icon (+ reversed, black, white)	Mark only
omnifarmgrid-app-icon (512, 192)	App stores, PWA manifest, avatars
apple-touch-icon.png	iOS home screen (180 px)
favicon.svg / favicon.ico	Browser tabs

Formats

SVG for the web, the app and anything printed: it scales to any size. **PNG** (transparent, 2400 px wide; icons 1024 px) for Word, PowerPoint and social media.

Where to find them

In the code repository: `libs/img/brand/omnifarmgrid/`, with `svg/` and `png/` folders. Please don't recreate the logo from screenshots.

Questions

If a use isn't covered here, ask the OmniFarmGrid team before publishing.
